

The Ultimate Travel Safety App for Students and Young Travelers

Are you planning a gap year vacation? Do you have students traveling abroad this summer?

“Knowledge and awareness = safer travel experiences”

The importance of safe travel to young people is imperative; whether you are traveling abroad for independent travel, gap year placements, organized tours or simply thinking about visiting a different country. TravelGuardian provides easily accessible and helpful information about safe travel and has been designed by leading security experts to help students and young people stay safe while traveling abroad.

Features:

- Country profiles; useful facts and information, including visa, passport and vaccinations
- Up-to-date country specific, security information and advice
- Real time country alerts, news and breaking incidents pushed directly to your device
- Secure document store; access to vital documents and personal information in an emergency
- SOS – Emergency email alert with GPS location feature
- Access to 24 hour emergency lifeline to security specialists
